

It has been brought to my attention that there may be a possibility of KLOVE (FM 103.1 in Scotts Valley, CA) being forced off the air. I wanted to briefly tell you how very important KLOVE is to me and my family. I am a stay-at-home-mom and mother of two school aged children. KLOVE is the only FM station I listen to whether the kids are with me or not! Not only do I feel 100% comfortable with the content, both music and news, but it provides much needed refreshment to our lives in this world where morals are absent in too many places. If I want to listen to the news, I don't fear that my children will hear something they shouldn't be listening to. The words of the songs honor our Lord and do not speak of mis-directed and unhealthy love - so prevalent in our secular songs! Thank you for your time.
